Census tracts with a population estimate of zero are not shown in the table. These include census tracts 9800, 9803, 9806, 9807, 9808, 9810, 9812, and 9813 in Honolulu County. It also includes census tract 9800 in Maui County. Census tract 412 in Kauai County (Niihau and Kaula) was listed as having no population, but it was probably due to nonresponse to the survey.

An '-' entry indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.

An '**' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.

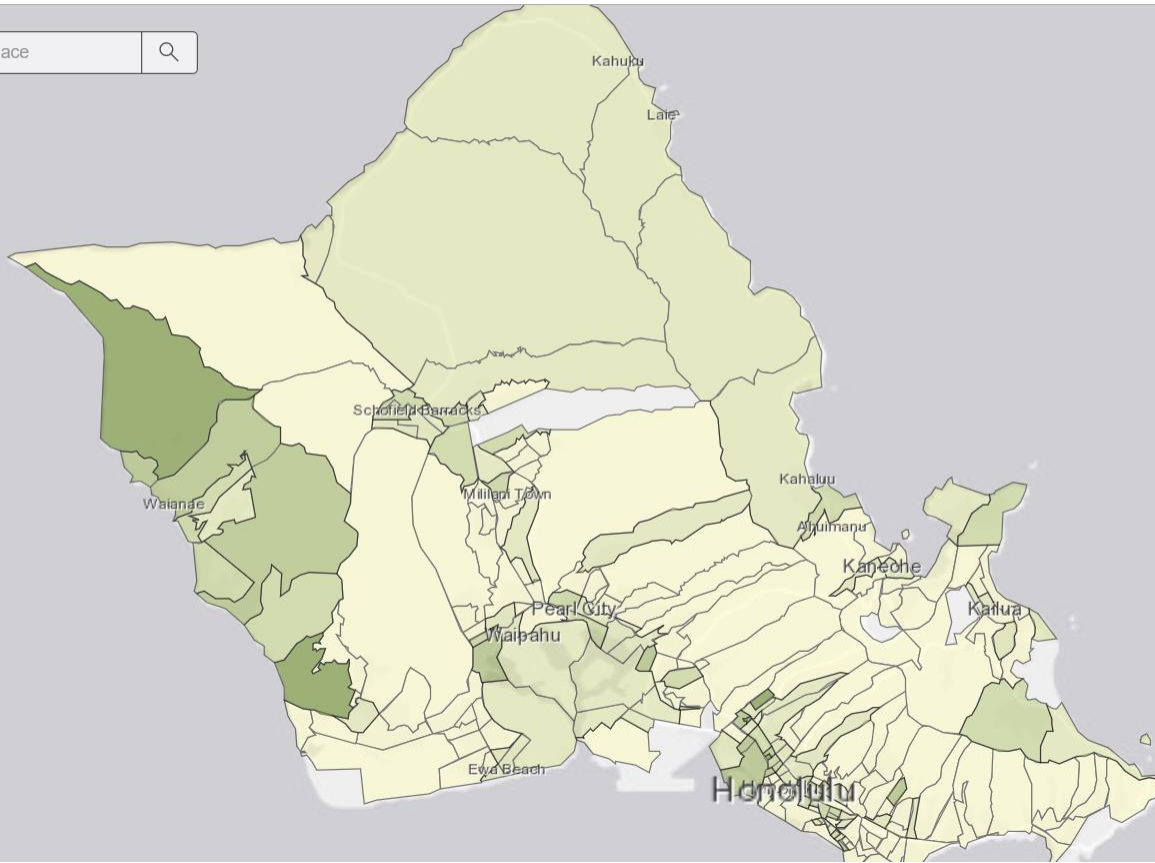

1/ Margin of error based on 90% confidence interval.
